New York Stock Market

NEW YORK, August 16.—The stock market to-day fell into a listless and spathetic mood, which was suggestive of the passing of the influences most relied on to stimulate price movements. The last of these was the cropreport, and its effect in attracting new demand to the market was negligible, judging from to-day's lethargic trading.

Ing.

The powerful forces back of the market apparently looked to the crop report to afford a basis for selling some of the accumulation of stocks that has been made in the course of raising prices to their present lofty altitude. In view of the absence of sufficient demand to absorb profit-taking sales, the sales were withhield, thus demonstrating once more the strong resources of the present conductors of the speculation and their indifference to ordinary discourage-

ments.

The professionals, who attempted to anticipate the expected profit-taking by short sales, were compelled to cover up their shorts to-day. The bear covering was responsible for a large part of the strength shown in the early market.

The covering operations concluded, no inclination to push the advance was apparent.

A few stocks were lifted on account of particular considera long, and with

of particular considerations, and with some sustaining effect of the general list, but the market as a whole fell into semi-stagnation as the day ad-

into semi-stagnation as the day advanced.

It is not improbable that the stiffening call loan rate had some influence in restraining the operations for a further advance in prices. Call loans were made above the 2 per cent. rate from the outset, and were taken at that rate readily by the borrowers, form the rates are from money stringency, they represent a distinct change from the plethoric conditions which have kept idle funds pressing for employment in the stock market at almest nominal rates for months past. Even the heavy money settlements.

The immediate cause of the higher rate yesterday and to-day was the weak bank return of Saturday and the heavy payments for customs duties which were incident to the rus of imports to anticipate the enforcement of the new tariff law. It was expected that this drain would prove temporary. Customs receipts are still heavy, however.

From interior markets come reports of hardening interest rate

From interior markets come reports of hardening interest rates which prove that surplus bank funds cannot be kept up to the redundancy with business expanding and industry reviving. Authorities in the Chicago money market expect an early return to fairly profitable rates for the banks. Among the special points of strength in to-day's stock market, Rock Island was conspicuous, and with considerable effect on speculative sentiment. The growing earnings of the Rock Island Company give occasion for speculation over a resumption of the dividends on the preferred stock, suspended since the autumn of 1905. The preferrential right of the superior stock to dividends, which was limited to 4 per cent, when they were paid before, rises to 5 per cent, in 1910 and to 6 per cent, in 1917.

The Copper group was strengthened by the July statistics of the copper producers' association. The month's reduction in stocks of 32,261,454 pounds represents more than half the total reduction which had occurred from the maximum surplus on April

at \$4.8655 for demand. Commercial bills, \$4.84 3-4@\$4.85. Bar silver, 50 7-8. Mexican dollars, 44.

CHICAGO GRAIN MARKET.

CHICAGO, August 10.—Overnight contemplation of the government crop report inspired additional bearishness in the minds of wheat traders on the Board of Trade to-day and prompted renewed selling, which resulted in still further declines in all deliveries. At the close the net losses were 16 Hz. Corn closed irregular, oats casy and provisions fairly steady.

Wheat was weak all day, although there were several moderate raillying on covering by shorts. Crop reports from the Northwest were in line with the prediction of the government statisticians, and another discouraging factor from the standpoint of the buils was the almost entire absence of demand from foreigners for the cash grain, there being practically no export bids, while some cancellations of former sales for export were received. During the day the Spitember delivery sold between \$7 and \$5\frac{1}{2}\ellin{C}\

Prospects for a crop close to 1,000,000,000,000 purchels inspired liberal gales of cats, which resulted in a weak tone throughout the entire session. Prices at the close were unchanged to Mc lower.
Provisions were weak, owing to the further stump in grain. Prices at the close were 2%c. higher to Theo. lower. WHEAT- Open, High, Low.

DRY GOODS MARKET.

NEW YORK, August 10.—The dry goods markets to-day were fairly active in the Jobbing sections. The primary markets ruled quiet and firm. There have been some fairly large saics of goods to the Philippines in anticipation or the new tariff going into effect, General export trade is quiet and the far Eastern trade is at a standstill. Cotton yarns are slightly easier with a light demand reported. Men's wear is less active.

On Foreign Exchanges

LONDON, August 10.—Money was in abundant supply on the market to-day and discounts were quiet,
On the stock exchange the general settlement is progressing easily, the carry-over rates being light. Those for Americans were quoted at 2 1-2 per cent. Business for the new account was fairly good. Grand Trunk was supported on dividend anticipations, and American rails were active count was fairly good. Grand Trunk was supported on dividend anticipations, and American rails were active on good traffic returns. Kaffrs improved on Paris, and professional buying and home rails beneated by better

trade returns. American securities opened steady, American securities opened steady, with prices a fraction over parity. Later, on good support, the market strengthened, and at noon was firm and from 1-8 to 3-4 of a point above yesterday's New York closing. Canadian Pacific was an exception and declined 3-4. The crop report caused early selling, but good buying lifted values. New York supported Louisville and Nashville, Union Pacific and United States Steel in the afternoon, but ne-States Steel in the afternoon, but ne-glected the others, and the market finshed quietly steady.

PARIS, August 10.—Prices on the Bourse to-day were firm, closing 3 per cent. rentes 38 francs, 5 centimes for the accoun. Exchange on Lorsion 25 francs 18 1-2 centimes for checks.

BERLIN, August 10.-Prices Bourse to-day were firm. Exchange on London, 20 marks, 45 pfennigs for checks. Money 2 7-8 per cent. Private rate of discount, 2 per cent.

CROP CONDITIONS

WASHINGTON, August 10.—Crop conditions in the United States on August 1, 1809, were, in the aggregate, slightly higher than on August 1, 1908, and moderately higher than a ten-year average condition of all crops on August 1. In addition to the higher condition, the agreage of cultivated crops is about 1.8 per cent, greater than last year. So says a general review of crop conditions issued to-day. Winter wheat, spring wheat, corn, cats, rye, flax, and grapes were better than last year and the ten-year average; barley and potatoes were better than the condition on August 1, last year, but slightly below the average condition.

Tobacco and sweet potatoes were better than the average and lower than last year. Important crops which were below both last year and an average.
